Dear Valued Customer

HMRC – Reform of red diesel usage

At Budget 2020 the government announced that it was removing entitlement to use red diesel from most sectors from 1 April 2022.

As a result of this we will be fuelling our machines with white diesel as from 1st April 2022 and charging for fuel used upon off hire at a cost determined by us, based upon the fluctuating price of diesel.

If you, as the hirer, top the tank up during the hire it must be with white diesel. YOU MUST not use RED DIESEL in our machines.

If a machine is returned refuelled with red diesel, the fuel will be removed and disposed of, the tank will be cleaned and refuelled – all of this will be recharged to you.

Further advice is available on the following link

[guidance about changes to rebated fuel entitlements from 1 April 2022](#)

Kind Regards

A Begley
